Top 5 Reasons Protera is your Microsoft Azure Modernization Partner for Manufacturing

Gartner analysts recently shared that manufacturing organizations need to take advantage of digital foundations that scale transformations while improving productivity, optimizing external partnerships, and maintaining daily output. Protera is the leader in running, protecting, and helping you realize the full potential of your SAP and enterprise environments.

Financial Governance – With the rapid growth of cloud comes an even more critical focus on real-time control and visibility of cloud spend to avoid budget overruns and resource strain. Protera offers a real time dashboard of cloud costs, as well as continuous monitoring of potential cost reduction and budget reallocation opportunities to focus resources higher up the stack.

Data Security – In manufacturing, there are untapped volumes of production data that could aid in meeting market changes faster, improve productivity, and meet customer demands. Protera's data intelligence and 24/7 security and monitoring unearth insights as well as protect every layer of your company and its data to prevent breaches, data loss, and human error.

Operational Scale – Set your business up for scalability and let our managed IT services team manage, deploy, and back up your enterprise assets so you can focus on projects up the stack. Our holistic approach to manufacturing network design will allow you to scale your operations with little to no downtime, provide you analytics so you can reduce overstocking, assess historical trends in your inventory, and get predictions to help you prepare for market fluctuations that you might not have otherwise been aware of.

Automation Experts – Fully integrated SAP and enterprise technology solutions driven by automation reduce risk and accelerate time to value. Whether a cloud migration, SAP S/4HANA technical upgrade or creating an automated disaster recovery testing solution, Protera's automated approach saves time, cost, and resources.

Continuous Improvement – Streamline, update and integrate operational systems while controlling cost and managing risk with continuous improvement embedded in Protera's application and cloud-managed services model.

Protera Quick Facts

Founded in **1998**

1st to run SAP on public cloud

Breadth of Services Include:

- SAP Basis Support
- SAP HANA and S/4HANA
- AWS / Azure Cloud Migration
- Data Center Migration
- RISE with SAP
- Managed DR and Automated Testing
- Data Lake and Analytics
- Integrated SecOps
- Desktop as a Service
