RISE with SAP
Migration and Integration Services from Protera

Protera

A Simplified Journey to Becoming an Intelligent Enterprise.

For SAP customers running their SAP systems on-premise or are already running SAP on cloud today, RISE with SAP may offer a simplified path for an operational licensing model, aid in achieving business goals around the next generation IT landscape for SAP, and could unify cost and business goals with the OPEX-based cost model.

What's Included with RISE with SAP?

Tools used to assess and migrate to SAP S/4HANA

License for S/4HANA Cloud or S/4HANA Cloud, Private Edition

Access to Business Process Intelligence (BPI)

How Protera Complements RISE with SAP

When you choose RISE with SAP, you'll need support in transitioning to a new environment, integrating bolt-on applications, and ensuring that your native cloud tenant operates seamlessly with the RISE with SAP tenant.

SAP Migrations
Protera accelerates and de-risks your migration of RISE with SAP to hyperscaler of choice with the best technologies from SAP, AWS, and Microsoft Azure using a combination of methods like storage replication, database replication, backup and restore, or fresh build.

Integrate bolt-ons and native cloud applications
Protera ensures that all 'friends of SAP' and native hyperscaler applications are seamlessly integrated to your RISE with SAP tenant. This is not included with the RISE with SAP package from SAP.

SAP Managed Basis Services
With 25 years of SAP BASIS managed services experience, Protera's deep bench of SAP experts provides technical management of your SAP and related applications, including basis support, database, OS, security, patching, and performance. We make sure that your systems are available, secure, responsive, and cost effective, and help you understand everything from transaction performance to the details of your cloud bill, all easily viewable.

Data Intelligence Services
Protera provides a low/no code single repository for structured and unstructured data from mission critical and ancillary data sources in a scalable, available, secure environment with enforced data management best practices, all compatible with the RISE with SAP tenant.

IT Security and Governance
Protera's integrated SecOps model creates a security baseline for comprehensive governance and managed services to enable continuous security posture reporting. Protera is globally certified, ITIL-based SAP partner with SOC2 for SAP and non-SAP.

Protera

For over 20 years, our mission has been to empower enterprises to achieve their modernization objectives with improved value, increased quality, and reduced risk. As the next-generation cloud modernization company, Protera's full suite of services ranges from IT strategy and design to implementation and management. Protera is a global SAP® partner certified in Hosting, Cloud, Application Management, Global Outsourcing, and SAP HANA Operations Services.
